

To our customers and partners around the world,

Dear friends,

At the moment heralding the coming of a new year, let me extend, on behalf of CISDI Group from China, our best wishes for you and your families – wishing you all have a peaceful, safe, and wonderful 2021.

The tough 2020 has kept us apart and posed challenges to our marketing and implementation. I'm moved by all your care, respect and support for our overseas projects and for our staff working onsite during the pandemic. All CISDI staff in China and beyond have remained safe and healthy through 2020. My utmost reassurance is that we will continue our diligence and modified safe ways of working in 2021.

In South East Asia we have risen magnificently to the challenges of the year and hit our contract and revenue targets. Our green, low-carbon and intelligent businesses saw remarkable breakthroughs as a result of our continual advancements and the entire Chinese market and economic recoveries.

CISDI's overseas operations centered at our UK company has been a consistent and even more powerful supporter during video-conferences with our customers and partners and the follow-up of ongoing and new projects both at home and abroad. Their unremitting efforts and close collaboration with the HQ have ensured the marketing and implementation fulfil schedule and quality controls.

Dear friends, all your trust and support is a source of enduring hope in difficult times. I believe the indomitable spirit and courageous actions will bring us a healing power and above all hope to usher in a happier, fruitful 2021.

I wish you a very happy New Year.

Xuewen Xiao

Chairman

CISDI Group
